Report

If the plots are not copied try the following.

1. Right-click on the plot (without selecting it, i.e. it should not be highlighted) and select Copy.
2. Then, in Word, under the tab Home click on the downward triangle under Paste and select Paste special.
3. Here select Unformatted Unicode Text and click OK.

Analysis name: DON_CHICKEN_1
This report was generated by **Anonymous** on **7/11/2019 10:43:03 PM (CET)**. PROAST version 66.39

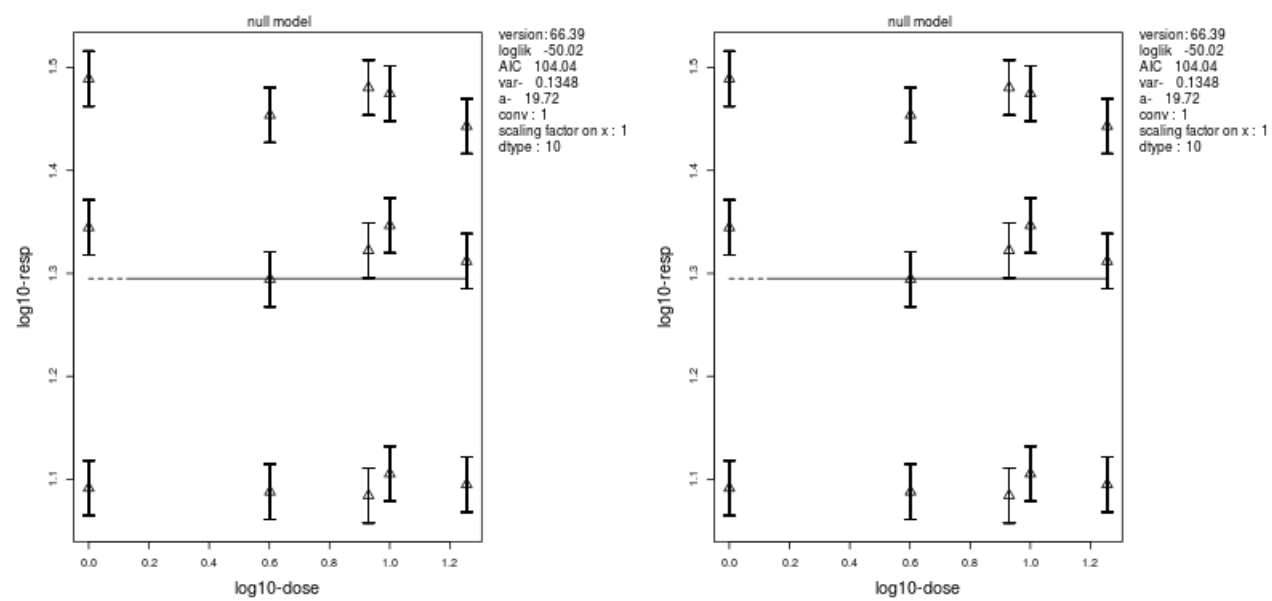

Input values

Removed data	No
Type of response data	Continuous, summary data
Dose column(s)	dose
Response column(s)	resp
Dispersion measure column(s)	dispersal
Relating to	Standard error of the mean
Group size column(s)	size
Covariate column	*none*
Litter effect	No
BMR (CES)	0.05
Model averaging	No
AIC criterion	2

Graphical output

Note that the plotted means and/or fitted curves relate to geometric means, which are lower than the arithmetic means provided in the data (see e.g. Slob, 2002)

null model

log10-resp

log10-dose

null model

log10-resp

log10-dose

Fitted models

model	converged	loglik	npar	AIC
full model	1	129.71	16	-227.42
null model	1	-50.02	2	104.04
Expon. m3-	1	-49.94	4	107.88
Expon. m5-	1	-50.02	5	110.04
Hill m3-	1	-49.94	4	107.88
Hill m5-	1	-49.93	5	109.86
